

Wire Marking Tags

These Wire Marking Tags are intended to be used for identifying irrigation wires and cables in order to facilitate troubleshooting of systems. These tags can be used to record information on wires, decoders, Decoder Cable Fuse Devices, etcetera.

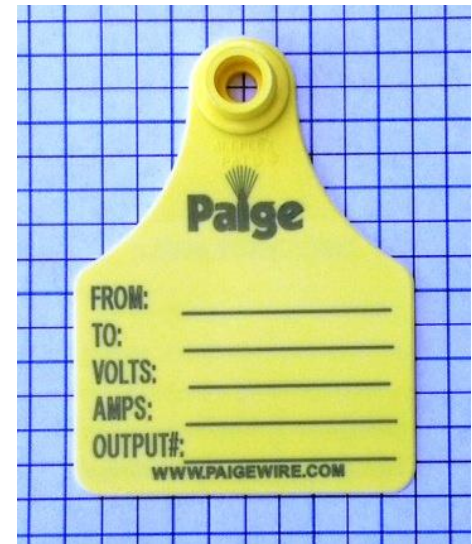

Features:

- The tags are pre-printed on the front and the back (see photos.) Just fill-in the blanks and your troubleshooting time and labor cost will be drastically reduced
- Print area: 2" x 1-1/4" (51mm x 32mm)
- Can be slipped over a wire or attached using a cable tie.
- A special permanent ink pen is available (The ink of standard Sharpie pens does not stay on permanently).

- Paige part numbers:
 - Tags are packaged 25/bag. Sold in bag quantities only. Paige part number 270WMT.
 - Marking pens are packaged 20/case and sold individually. Paige part number 270WMP.
