

# Paige spec Power Cords

- 3-prong plug, Right Angle or Straight plug, NEMA 5-15P configuration.
- Plug prongs are protected with plastic cap to prevent damage during handling.
- Cable is 16 AWG Type SJTW, 3-conductors, with a black outer jacket.
- Inner conductors are black, white and green.
- Indoor and Outdoor rated assemblies, UL and CSA, 300V.
- The wire ends are pre-stripped (1/4") and tinned for faster installation.
- The Power Cords are twist or cable tied as shown in the photo. A label containing the Paige part number and description is attached to the Power Cords.
- Packaging: 50/case, 2400pallet
- All models are also available with a Waterproof Gland with 1/2" NPT thread and nut, and a sealing rubber washer. The Waterproof Gland is UL and CSA listed. This speeds-up the installation and keeps water from entering the bottom of the controller.
- Part numbers & Descriptions:
